Reuse ✓ (washable)

DO YOU KNOW?

The general public does not need to use N95 or surgical masks. You can use a cloth mask or sanitary mask. People who are sick, use a mask. For the N95 mask used in medicine, it is recommended to only be used by personnel working with infected or suspected infections with COVID-19.

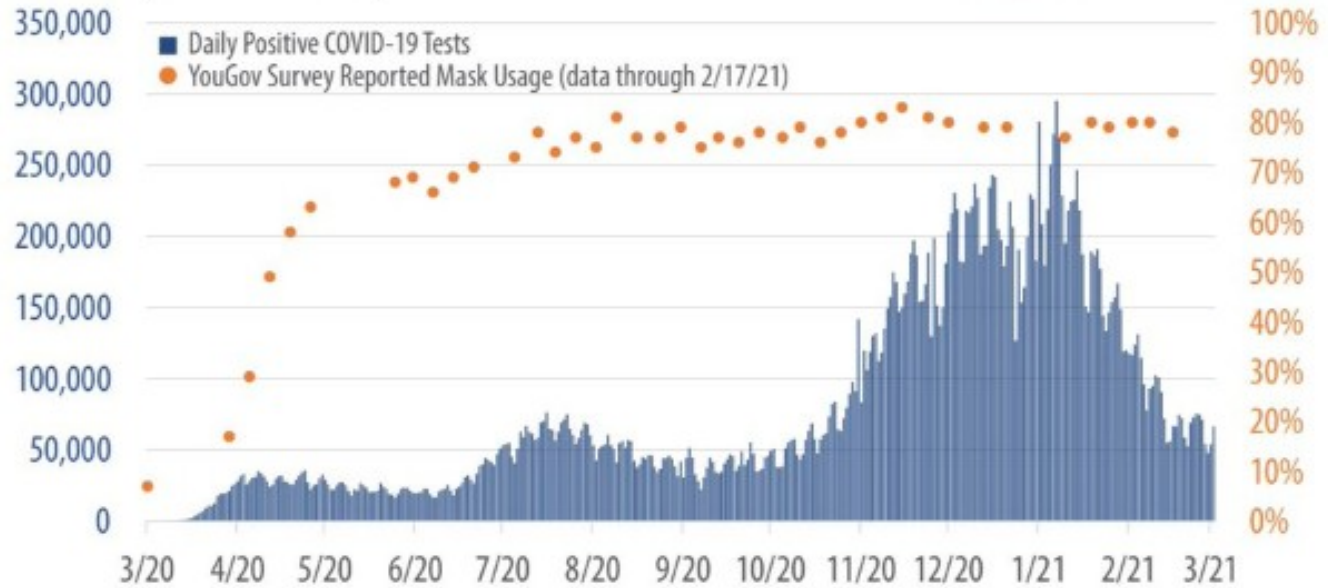

Do Masks Work?

Daily New Cases in the United Kingdom

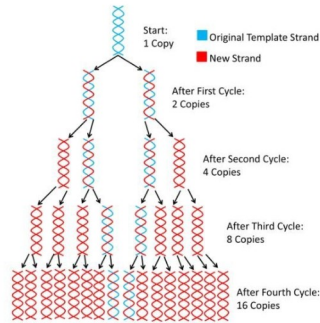

Detecting the SARS-CoV-2* virus

BY POLYMERASE CHAIN REACTION (PCR)

*The virus that causes COVID-19

AMPLIFICATION

This technique involves the amplification** of specific DNA fragments. Only a single DNA fragment is needed to generate **millions, even billions**, copies

THERMAL CYCLING

A thermal cycler like this, commonly used in a lab to facilitate temperature-sensitive reactions, helps amplify segments of DNA, by increasing and decreasing temperature to specific levels.

TUBES WITH SAMPLES

The tubes with samples are then placed in the device (similar to the one above) to start the reaction.

A sample consists the following 'ingredients':

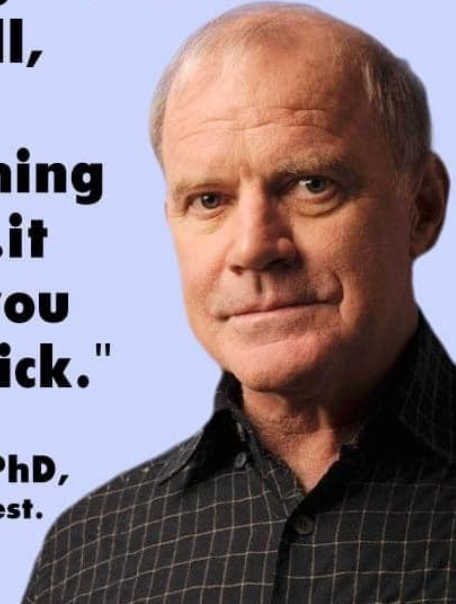

- 10x PCR buffer
- 2mM dNTP mix
- Primer 1
- Primer 2
- Taq DNA polymerase
- 25mM MgCl₂
- Template DNA

**DNA amplification: The production of multiple (millions to billions) copies of a sequence of DNA.

The Polymerase Chain Reaction (PCR) Test

Anyone can test positive for practically anything with a PCR test, if you run it long enough...with PCR if you do it well, you can find almost anything in anybody...it doesn't tell you that you're sick."

—Dr. Kary Mullis, PhD, creator of the PCR test.

- Myocarditis/pericarditis
- Autoimmune disease
- Deaths
- Pregnancy and birth outcomes
- Other acute demyelinating diseases
- Non-anaphylactic allergic reactions
- Thrombocytopenia
- Disseminated intravascular coagulation
- Venous thromboembolism
- Arthritis and arthralgia/joint pain
- Kawasaki disease
- Multisystem Inflammatory Syndrome
in Children
- Vaccine enhanced disease

Some Experimental Covid-19 Vaccine Facts

- Efficacy rates of 90%+, reduced over time
- Minimize symptoms of Covid-19
- Does not stop reinfection or transmission of Covid-19
- Uses new mRNA technology
- Not safety tested on animals
- No long term testing on humans
- Clinical trials incomplete
- Very significant number of deaths and injuries
- Vaccine manufacturers not liable for death or injury
- Infection with Covid-19 → Natural Immunity
- Effective and safe therapeutics are available

FDA “Approval” of Pfizer Covid Vaccine

- FDA issued two letters on August 23, 2021
 - Extended the EUA for the Pfizer vaccine
 - Granted approval to a different vaccine called Comirnaty which is not yet in the marketplace and is not in production
- Pfizer still has legal immunity under the EUA for all the injuries and deaths caused by its vaccine
- Comirnaty vaccine will not be available until 2024/5?
 - No control group exists
 - It is not yet a vaccine
- “Top scientists [Dr. Peter McCullough + 56 other Doctors] release study warning against COVID-19 vaccines, demand an immediate end to vaccinations”, October 19, 2021

Pfizer Covid-19 Vaccine Full “Approval” Issues

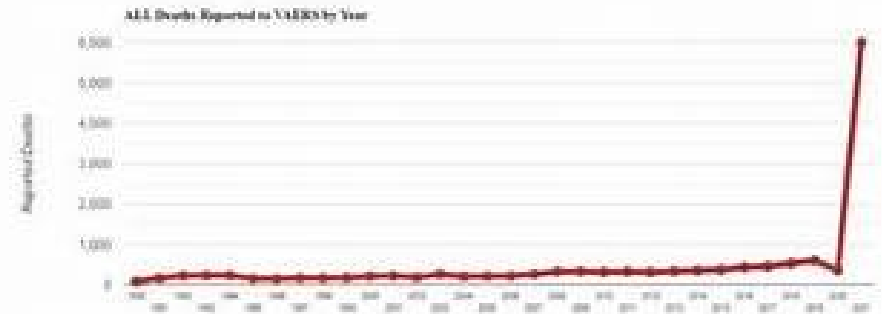

- Pfizer clinical trials don't end until May 2023
- COVID job mandates violate fundamental human rights
- There's a history of medical disasters to consider
- There has been no external review of the Pfizer jab
- All we have is six months of incomplete data
- There are no control groups in this global experiment
- The immunity the jabs may have provided appears to be waning
- Pfizer never publicized troubling results from animal trials
- Wave of vaccine mandates issued in response to FDA announcement
- Pfizer is a career criminal with a rising tide of victims

Children's Health Defense to sue FDA over fraudulent Pfizer covid vaccine "approval"

- CHD filed legal challenge on August 27
- FDA rebranded Pfizer product from EUA to fully approved for those 16 and older
- 13,000+ reported deaths
- 600,000+ adverse effects
- Less than 50% effective
- Booster shot won't help
- Public health disaster

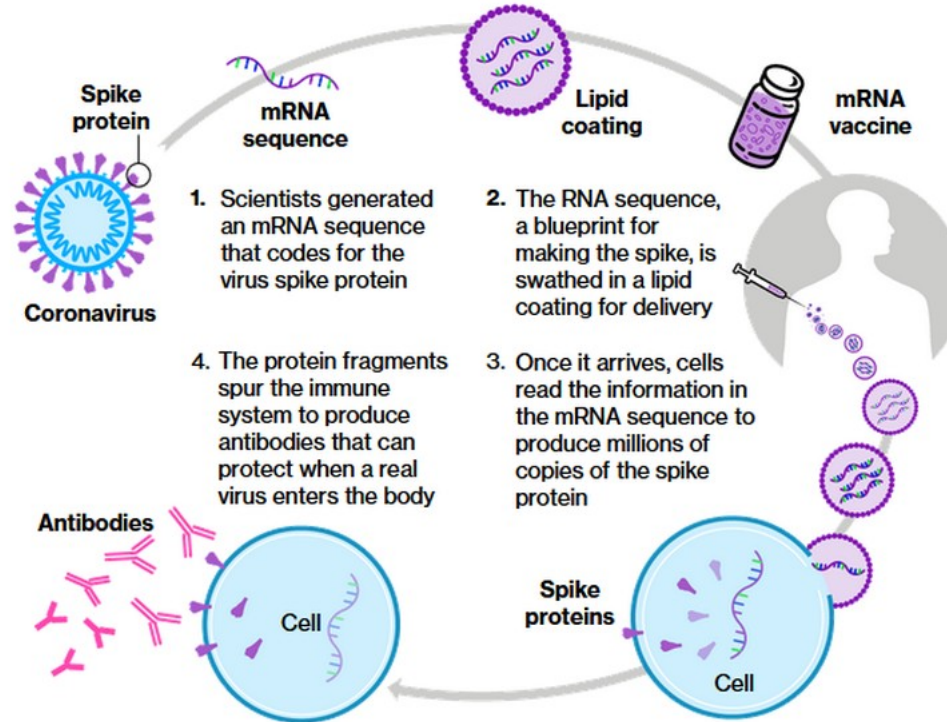

Reported Deaths post COVID Vaccine: Total 5,888

Herd Immunity Redefined by WHO in November 2020

The image displays two side-by-side screenshots of the World Health Organization (WHO) website. Both pages feature the WHO logo and navigation menus at the top. The left screenshot is dated 9 June 2020 and titled "Coronavirus disease (COVID-19): Serology". The right screenshot is dated 13 November 2020 and titled "Coronavirus disease (COVID-19): Serology, antibodies and immunity". Both pages have a section titled "What is herd immunity?" with a minus sign icon to its right. The text in the left screenshot defines herd immunity as indirect protection that occurs when a population is immune through vaccination or previous infection. The text in the right screenshot defines herd immunity as a concept used for vaccination, where a population can be protected from a virus if a threshold of vaccination is reached. It also notes that herd immunity is achieved by protecting people from a virus, not by exposing them to it, and provides a link to a media briefing speech.

World Health Organization

Coronavirus disease (COVID-19): Serology

9 June 2020 | Q&A

What is herd immunity?

Herd immunity is the indirect protection from an infectious disease that happens when a population is immune either through vaccination or immunity developed through previous infection. This means that even people who haven't been infected, or in whom an infection hasn't triggered an immune response, they are protected because people around them who are immune can act as buffers between them and an infected person. The threshold for establishing herd immunity for COVID-19 is not yet clear.

World Health Organization

Home / Newsroom / Q&A Detail / Coronavirus disease (COVID-19): Serology, antibodies and immunity

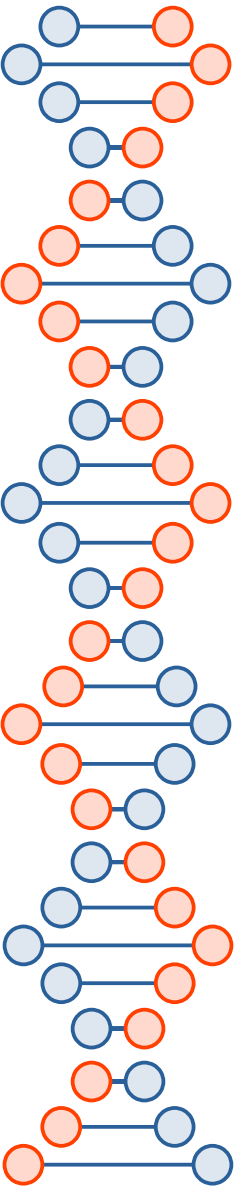

Coronavirus disease (COVID-19): Serology, antibodies and immunity

13 November 2020 | Q&A

What is herd immunity?

'Herd immunity', also known as 'population immunity', is a concept used for vaccination, in which a population can be protected from a certain virus if a threshold of vaccination is reached.

Herd immunity is achieved by protecting people from a virus, not by exposing them to it. Read the Director-General's 12 October media briefing speech for more detail.

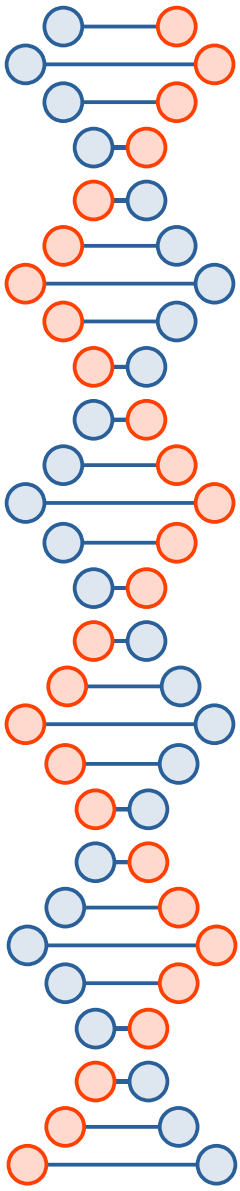

Immunity → Protection

Vaccination (pre-2015): Injection of a killed or weakened infectious organism in order to prevent the disease.

Vaccination (2015-2021): The act of introducing a vaccine into the body to produce immunity to a specific disease.

Vaccination (Sept 2021): The act of introducing a vaccine into the body to produce protection from a specific disease.

Basics and Common Questions

Understanding mRNA COVID-19 Vaccines

mRNA vaccines are a new type of vaccine to protect against infectious diseases. Learn about how [COVID-19 mRNA vaccines work](#).

Definition of Terms

Let's start by defining several basic terms:

Immunity: Protection from an infectious disease. If you are immune to a disease, you can be exposed to it without becoming infected.

Vaccine: A product that stimulates a person's immune system to produce immunity to a specific disease, protecting the person from that disease. Vaccines are usually administered through needle injections, but can also be administered by mouth or sprayed into the nose.

Vaccination: The act of introducing a vaccine into the body to **produce immunity to a specific disease.**

Immunization: A process by which a person becomes protected against a disease through vaccination. This term is often used interchangeably with vaccination or inoculation.

1:23 / 6:02

Defining “Vaccinated”

- **Who is vaccinated?**
 - 2 shots of mRNA (Pfizer, Moderna)
 - 1 shot of Johnson & Johnson
 - 1 or 2 shots + 2 weeks or more [**fully vaccinated**]
 - Resulting in Limited Immunity
- **Who is unvaccinated?**
 - No shots and no Covid infection
 - 1 or 2 shots + less than 2 weeks
 - No shots and recovered from Covid infection, resulting in Natural Immunity

IVERMECTIN PROPHYLAXIS

TRIALS SHOW THAT TAKING IVERMECTIN REGULARLY (ONCE A WEEK, ECT.) IS 91% EFFECTIVE AT PREVENTING CORONAVIRUS INFECTION. A BETTER PREVENTION RATE THAN THE COVID VACCINE.

- WHO takes pains to not mention the positive results of the trials -instead ONLY detailing the supposed “low quality” or “low certainty”
 - “very few placebo controlled” trials? ..All were randomized, controlled.. in a pandemic
- They took pains to mention they have not looked at trials of ivermectin in prevention
 - Prevention trials data actually have the strongest evidence – 7 controlled trials, 6 prospective, 3 prospective randomized including over 2,400 patients
- NIH in January upgraded their recommendation to neutral after the FLCCC presentation
 - WHO.. Now downgrades the recommendation... using LESS evidence (16 trials?)
- Guideline Co-Chair is quoted “data available was sparse and likely based on chance”
 - Unitaid/WHO Ivermectin Research Team Lead, Dr. Andy Hill sais.. In January:
 - “The probability the findings of ivermectin on survival are due to chance ... is 1 in 5,000”

Day of Death After COVID-19 Vaccination

86% of deaths had no other explanation than the vaccine

Analysis of Covid-19 Vaccine Death Reports

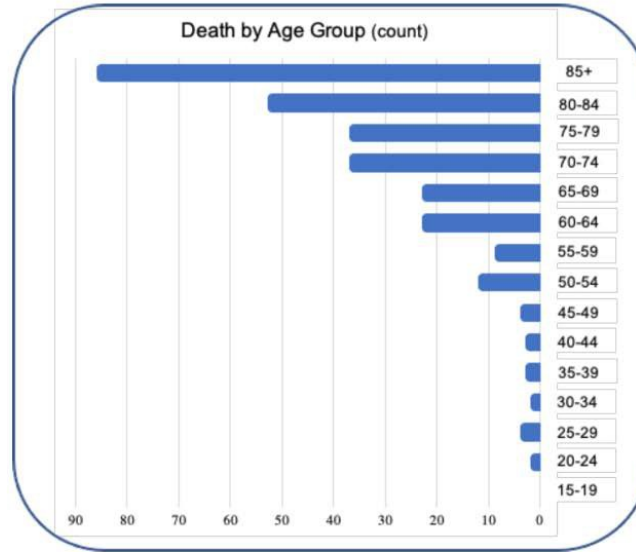

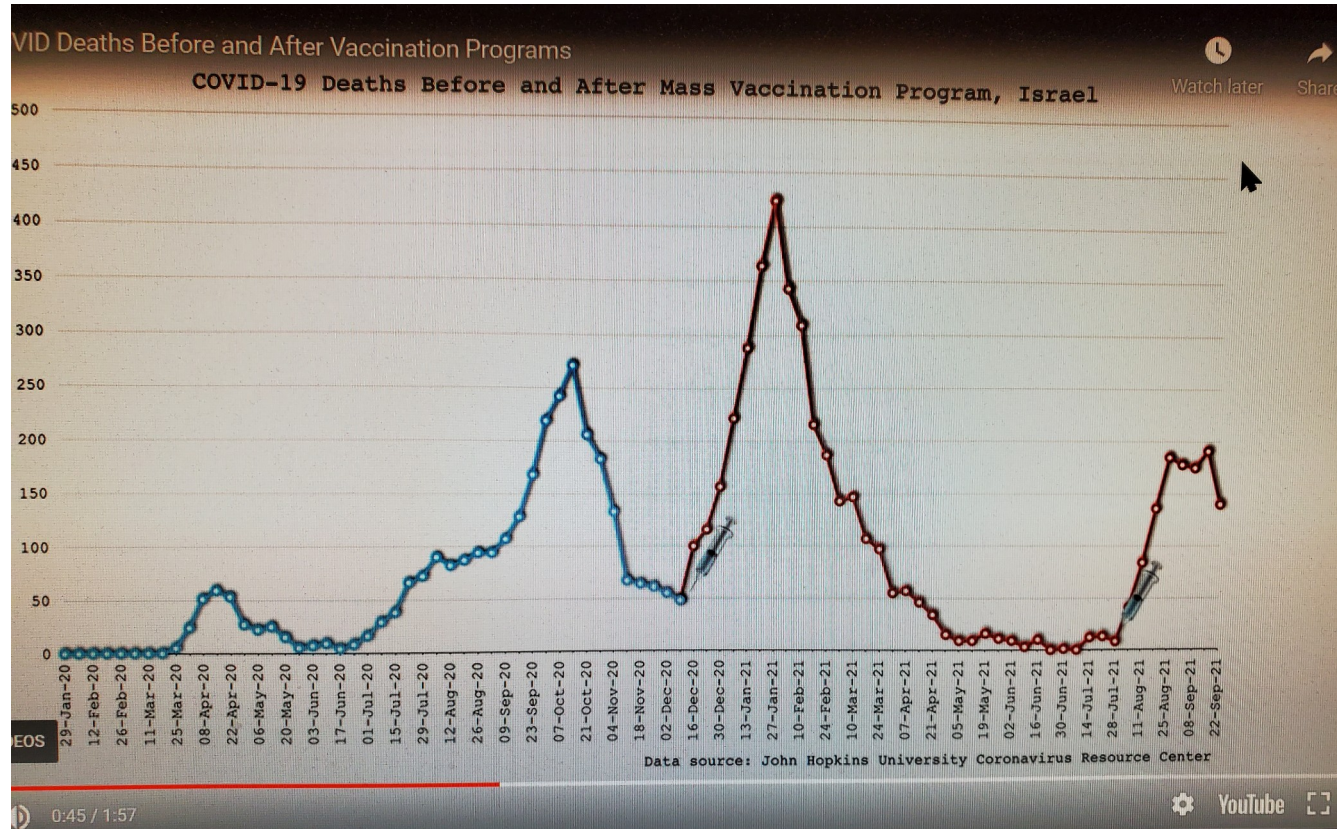

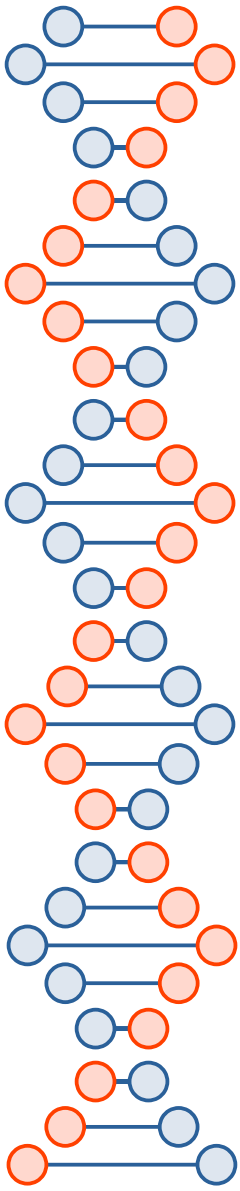

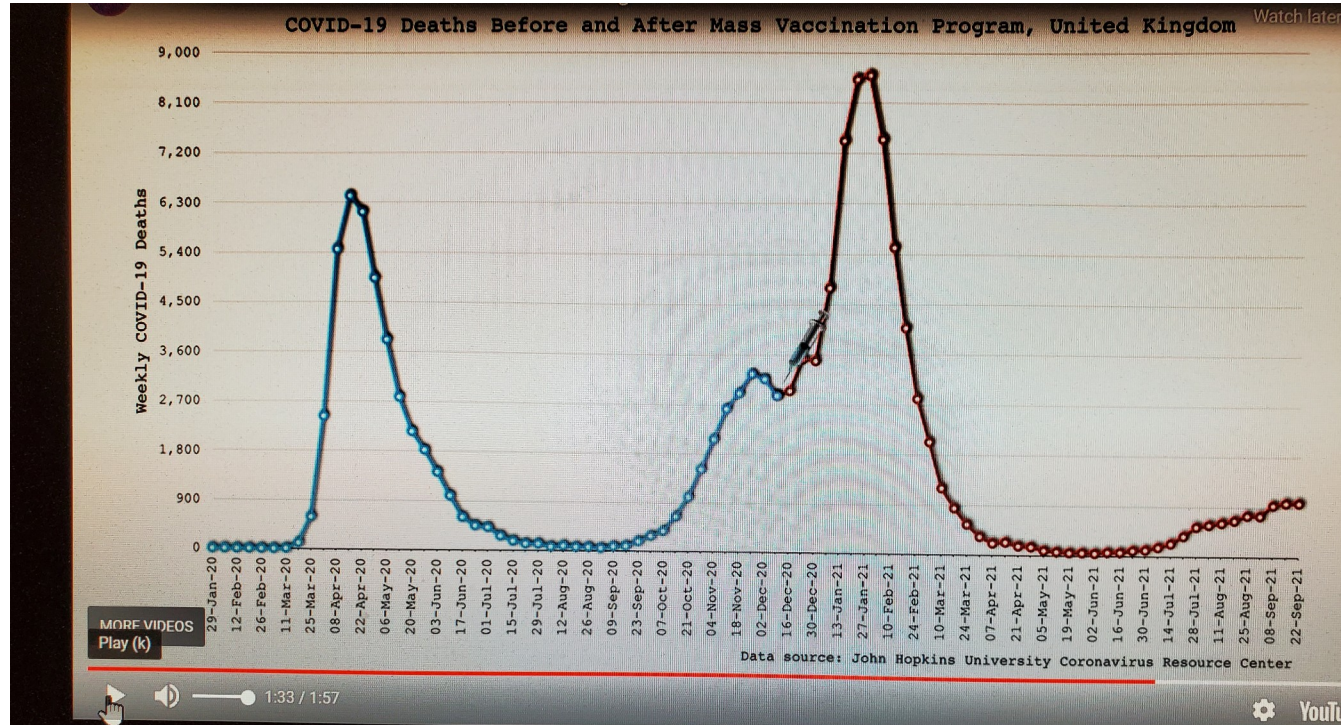

Figure 3: Death by Age Group

Much has been made in the media and academic literature about the need for protection and early vaccination of those aged 65 years and over. We believe this focus is the primary reason that 80% of the post-vaccination decedents reported are in this age group. Almost one-tenth (9%) expired within only 6 hours of their vaccination and 18% died in less than 12 hours. Over one third (36%) did not survive through to the following day.

Covid Deaths Before/After Vaccination - Israel

Covid Deaths Before/After Vaccination - UK

COVID DEATHS BEFORE AND AFTER
VACCINATION PROGRAMS

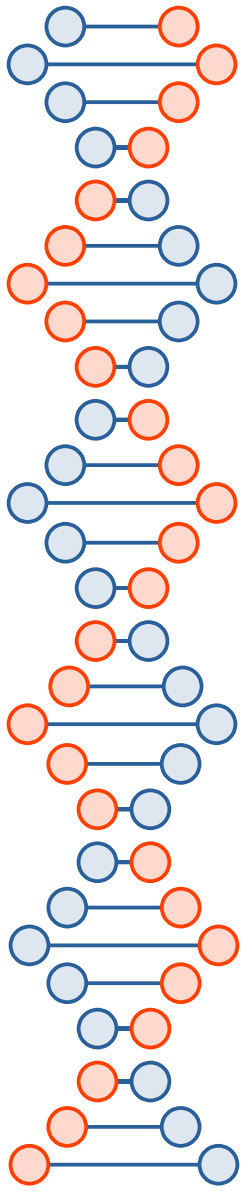

Dr. Peter McCullough: “The Vaccine is Failing in The UK and Israel”

- 1 The virus does not spread asymptotically.
- 2 We should never test asymptomatic people.
- 3 Natural immunity is robust, complete, and durable.
- 4 COVID-19 is easily treatable at home.
- 5 The current vaccines are obsolete, unsafe, and unfit for human use.

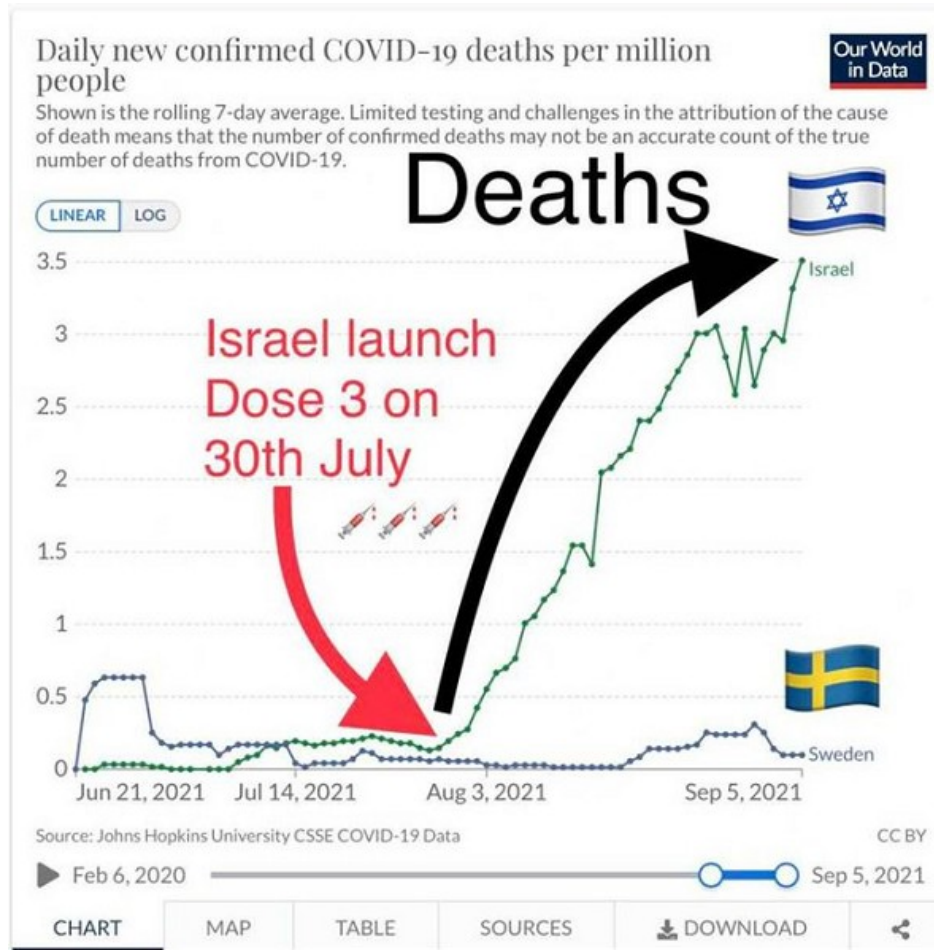

<https://rumble.com/vIzlr0-dr.-peter-mccullough-the-vaccine-is-failing-in-the-uk-and-israel-offbeat-bu.html>

Vaccines Fail with Loss of Efficacy and Resistant Strains of SARS-CoV-2

Israel Confirmed Cases, July 4th - July 31st				
Age Group	Cases Fully Vaccinated	Cases Unvaccinated	Percent of Cases Fully Vaccinated	Percentage of Population Fully Vaccinated
20-29	2689	795	77.2%	71.9%
30-39	3176	881	78.3%	77.4%
40-49	3303	635	83.9%	80.9%
50-59	2200	359	86.0%	84.4%
60-69	2200	187	92.2%	86.9%
70-79	1384	100	93.3%	92.8%
80-89	540	61	89.9%	91.2%
90+	142	20	87.7%	89.7%
Total	Total	Total	Average	Average
20-90+	15634	3038	86.0%	84.4%

Be Like Sweden, Not Israel

Peter McCullough: The Vaccine Catastrophe

- In order to get COVID you have to be in a room with somebody face to face for about 3 hours.
- Natural immunity as a COVID-recovered person is robust, complete and durable. It stops COVID where vaccination doesn't.
- The PCR test was never approved for people without symptoms because they are likely to generate false positives. Testing should never be done in asymptomatic individuals – they are not sick! You can only transmit the virus if you are SICK. There is no such thing as asymptomatic spread.

<https://www.brighteon.com/8e0c73a3-2e58-4d38-b7b1-b5221a458dd8>

Peter McCullough: The Vaccine Catastrophe #2

- None of the public measures (masks, lockdowns etc) are supportable – there is zero benefit.
- Early treatment is key, focusing on those who actually have COVID, not everybody else.
- We now have 13,000 deaths from the vaccines and we've never had a press briefing on safety or efficacy.
- The vaccines cause the body to make spike proteins, and because younger people have more vigorous spike protein production, they are especially damaged with neurologic, cardiac, immunologic and hematologic effects.

Peter McCullough: The Vaccine Catastrophe #3

- The vaccinated are, it appears, super spreaders, carrying large amounts of virus and passing it to the unvaccinated, creating the delta pandemic.
- I think, honestly, the vaccine programme is a bigger problem than COVID in NZ. If tomorrow the vaccine went away, it would be a national holiday. I can't think of any past drug or injection that is this dangerous.
- We have an out-of-control snowball of biological catastrophe and we're doing it to ourselves at the point of a needle.

Conclusions of McCullough Reports

- COVID-19 pandemic is a global disaster
- Pathophysiology is complex—not amenable to single drug
- The prehospital phase is the time of therapeutic opportunity
- Hospitalization and late treatment form an inadequate safety net with unacceptably high mortality

Conclusions of McCullough Reports - 2

- Early ambulatory therapy with a sequenced, multi-drug regimen is supported by available sources of evidence and has a positive benefit-to-risk profile
 - Reduce the risk of hospitalization and death
 - More safely temporize to close the crisis with vaccination and natural herd immunity
- COVID-19 genetic vaccines have an unfavorable safety profile and are not clinically effective, thus they cannot be generally supported in clinical practice at this time
- Censorship and reprisal are working to crush freedom of speech, scientific discourse, and medical progress

Ending the Pandemic

 - State in India with 240M population – Ivermectin package given to all
- Ivermectin write-up in American Journal of Therapeutics
 - Ivermectin for Prevention and Treatment of COVID-19 Infection: A Systematic Review, Meta-analysis, and Trial Sequential Analysis to Inform Clinical Guidelines. American Journal of Therapeutics, 28, e434-e460, July 2021
 - <https://pubmed.ncbi.nlm.nih.gov/34469921/>
- Fact check: Ivermectin is not a proven treatment for Covid-19
 - [Article in USA Today on August 13, 2021](#)
 - Claim that no double-blind randomized trial
 - USA Today claim is without merit – 20+ countries use Ivermectin

Vaccine Mandates?

- Experimental vaccines
 - Current vaccines fall under EUA (No indemnification)
 - Comirnaty vaccine not available until 2025? (With indemnification?)
- Violates the scientific evidence
 - Vaccines do not prevent transmission or another infection
 - More than 16,000 deaths and more than 700,000 injuries so far
- Violates first amendment rights – medical freedom
- Violates Nuremburg Code
- Violates Doctors' Hippocratic Oath
- Medical exemption support?
- Religious exemption support?

Nuremberg Code (1948)

1. The **voluntary consent of the human subject** is absolutely essential.
2. The experiment should be such as to **yield fruitful results** for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.
3. The experiment should be so designed and based on the results of animal experimentation and knowledge of the natural history of the disease or other problem under study that **the anticipated results will justify the performance of the experiment.**
4. The experiment should be so **conducted as to avoid all unnecessary physical and mental suffering and injury.**
5. **No experiment should be conducted where there is an a priori reason to believe that death or disability injury will occur;** except, perhaps, in those experiments where the experimental physicians also serve as subjects.
6. The **degree of risk to be taken should never exceed** that determined by the humanitarian importance of the problem to be solved by the experiment.
7. Proper preparations should be made and adequate facilities provided **to protect the experimental subject** against even remote possibilities of injury, disability, or death.
8. The experiment should be conducted only by **scientifically qualified persons.**
9. During the course of the experiment **the human subject** should be at liberty to bring the experiment to **an end** if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible.
10. During the course of the experiment the **scientist in charge must be prepared to terminate the experiment at any stage,** if he has probable cause to believe that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

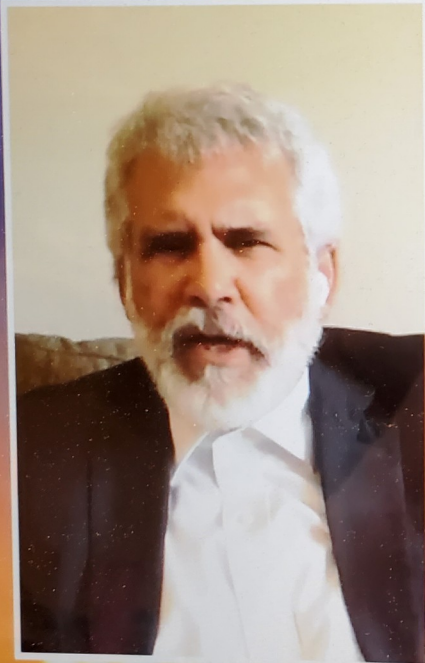

Impact of Mandates

- Loss of jobs by unvaccinated
- Staff shortages of nurses and health care workers
- Crime increase – police choose freedom from the shot
- Creation of two classes of citizens – vaccinated and the unvaccinated
- Destruction of small business, e.g. restaurants
- Enrichment of large monopolies such as Amazon, Walmart, Costco, Google, etc.
- Destruction of economy
- Loss of personal freedom

Declining a Vaccine Mandate

How To Legally Decline A Vaccine

STEP 1.)

DO NOT 'refuse' a vaccine. Otherwise you will be considered belligerent. Instead you can politely decline the service by doing the following:

STEP 2.)

Ask the doctor, "**Does the vaccine have MRC-5 in it?**" (THEY ALL DO)
These are aborted fetal cells and other DNA.
If the vaccine contains MRC-5 you have the RIGHT to decline.

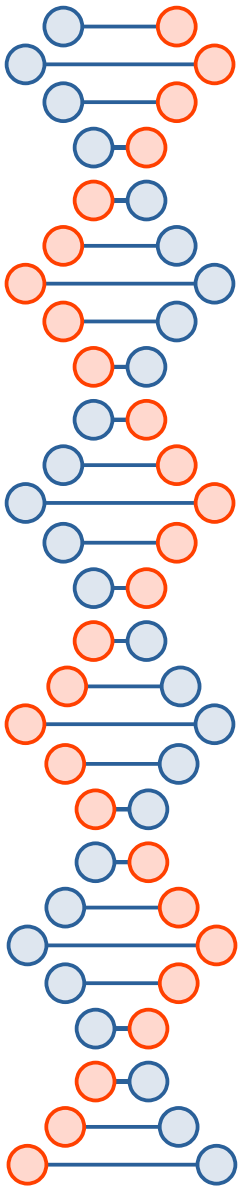

STEP 3.)

Also ask, "**Is there a possibility of a "LATROGENIC REACTION?"**
(an adverse reaction caused by multiple compounds or drugs interacting with each other) from the vaccine (THEY ALL DO).
- When the doctor says, "yes it does," that is your "Get Out Of Vaccine Free Card." Thank the doctor for their offer and walk away.

Remember doctors have sworn the Hippocratic Oath (Which is to do no harm) They must honour it.
This is how we can **legally (and respectfully)** decline their offered mandated services and there is absolutely nothing they can do about it. Now you know!

PLEASE SHARE WITH EVERYONE YOU CARE ABOUT!

Chicago Police Union President Says **** No To Lightfoot's Vaccine Mandate

Not even ONE state legislature has passed a covid vaccine mandate – it's all rogue governors and local officials doing the dirty work

- (Natural News) The National Vaccine Information Center (NVIC) recently put out its 2021 Annual Report showing that not a single one of the existing Wuhan coronavirus (Covid-19) “vaccine” mandates across the United States was legally enacted through a state legislature.
- All of them, it turns out, were decreed into existence by state governors, state or local officials, or private employers – meaning none of them are legitimate or legally enforceable in any way, shape or form.
- This is not to say that a legislatively imposed Fauci Flu jab mandate, if one existed, would be any more legitimate constitutionally speaking – it certainly would not, just to be clear. It is just that these existing mandates are flagrantly dictatorial and obviously hold no weight whatsoever.

<https://www.naturalnews.com/2021-10-11-no-state-legislatures-passed-covid-vaccine-mandates.html#>

Top NYPD Union Promises Legal Action If City Imposes COVID-19 Vaccine Mandate

- Epoch Times, August 26, 2021
- “If the City attempts to impose a vaccine mandate on PBA members, we will take legal action to defend our members’ right to make such personal medical decisions,” Police Benevolent Association (PBA) President Patrick Lynch said in an email.

CRISIS IN AMERICA: MILLIONS OF NURSES ARE RESIGNING OR BEING FIRED OVER COVID VACCINE MANDATES

- As Katie Kirn, RN from Michigan says, "We are being forced to decide between risking debilitating injury or death from this experimental vaccine with the highest mortality rate in history – which of course, will not be covered by the manufacturer, government or hospital – or losing our jobs and financial stability. Many nurses are leaving healthcare, altogether."
- "Exemptions are not the answer. We should not be forced to apply for an exemption from a mandate that is Unconstitutional, in the first place. Freedom is the answer."

Michigan healthcare workers support bill banning vaccine mandates

HB 4471 prevents employers from requiring employees to get vaccinated against COVID-19 and other diseases like tetanus, diphtheria and pertussis. It also prevents employers from threatening, firing, discriminating against, retaliating against and refusing to hire workers who decline to get vaccinated.

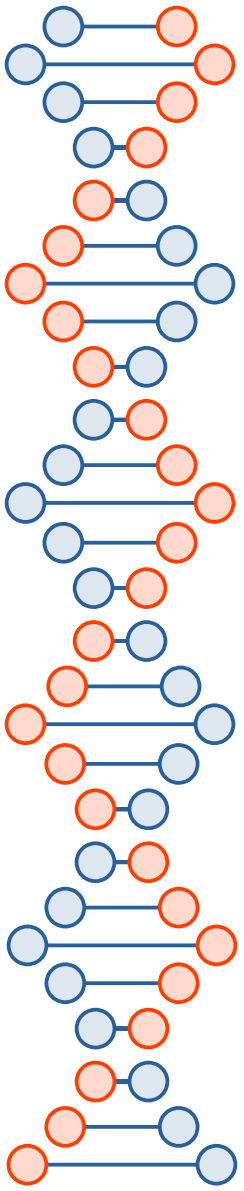

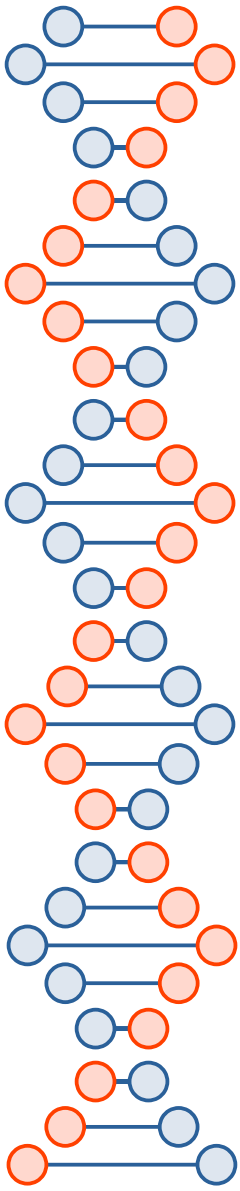

Stopping the Tyranny of Medical Mandates

TX Hospital Faces Closure Over Vaccine Mandates

THE GREAT AWAKENING

Standing For Freedom

1. **Video by SW Airlines Captain.**

It's not just Southwest Airlines...Other pilots are starting to stand up. I stand with the pilots, the truckers, the conductors and the captains.

2. **FACT: by Pierre Kory, MD MPA:**

Between 100-200 members of Congress and their families & staffers have been treated with IVM & our I-MASK+ protocol for COVID. NO hospitalizations. Not one of them reported that to the people. Saved themselves & stayed silent as IVM was torched.

Some very encouraging recent developments around vaccine tyranny

- Denmark ends all COVID restrictions, including the Vaccine Passport
- Sweden, Denmark, Finland halt vaccination for those younger than 30 [heart inflammation]
- Germany suspends vaccine licenses for the next two weeks
- Japan Health Minister advocates Ivermectin
- Province of Alberta ends all COVID restrictions, after failing to prove that COVID-19 has ever been isolated in human tissue
- Texas Supreme Court nullifies mask mandates in public schools
- FL Rep. Sabatini Files Bill to Ban Vaccine Mandates
- Croatia and Romania stop vaccine injections
- Norway, Singapore lift Covid restrictions
- UK drops vaccine passport ideas for the time being

Declarations by Doctors & Scientists

- **Great Barrington Declaration - October 2020**
 - Great concerns about the damaging physical and mental health impacts of Covid-19 policy
 - Recommend an approach of focused protection
 - 860,000+ signatories by health workers and concerned citizens in 12 months
- **Rome Declaration - September 2021**
 - Alert citizens about deadly consequences of Covid-19 policy
 - Physicians loyal to the Hippocratic Oath
 - Physicians free to practice the art and science of medicine without retribution and censorship
 - 12,000+ medical signatories (includes Dr. Robert Malone) in just a few months

Rome Declaration

[UPDATE: as of 8am ET on 9/30 over 7,800 doctors & scientists have signed the Rome Declaration. Please join us by reading and signing below.]

We the physicians of the world, united and loyal to the Hippocratic Oath, recognizing the profession of medicine as we know it is at a crossroad, are compelled to declare the following;

WHEREAS, it is our utmost responsibility and duty to uphold and restore the dignity, integrity, art and science of medicine;

WHEREAS, there is an unprecedented assault on our ability to care for our patients;

WHEREAS, public policy makers have chosen to force a "one size fits all" treatment strategy, resulting in needless illness and death, rather than upholding fundamental concepts of the individualized, personalized approach to patient care which is proven to be safe and more effective;

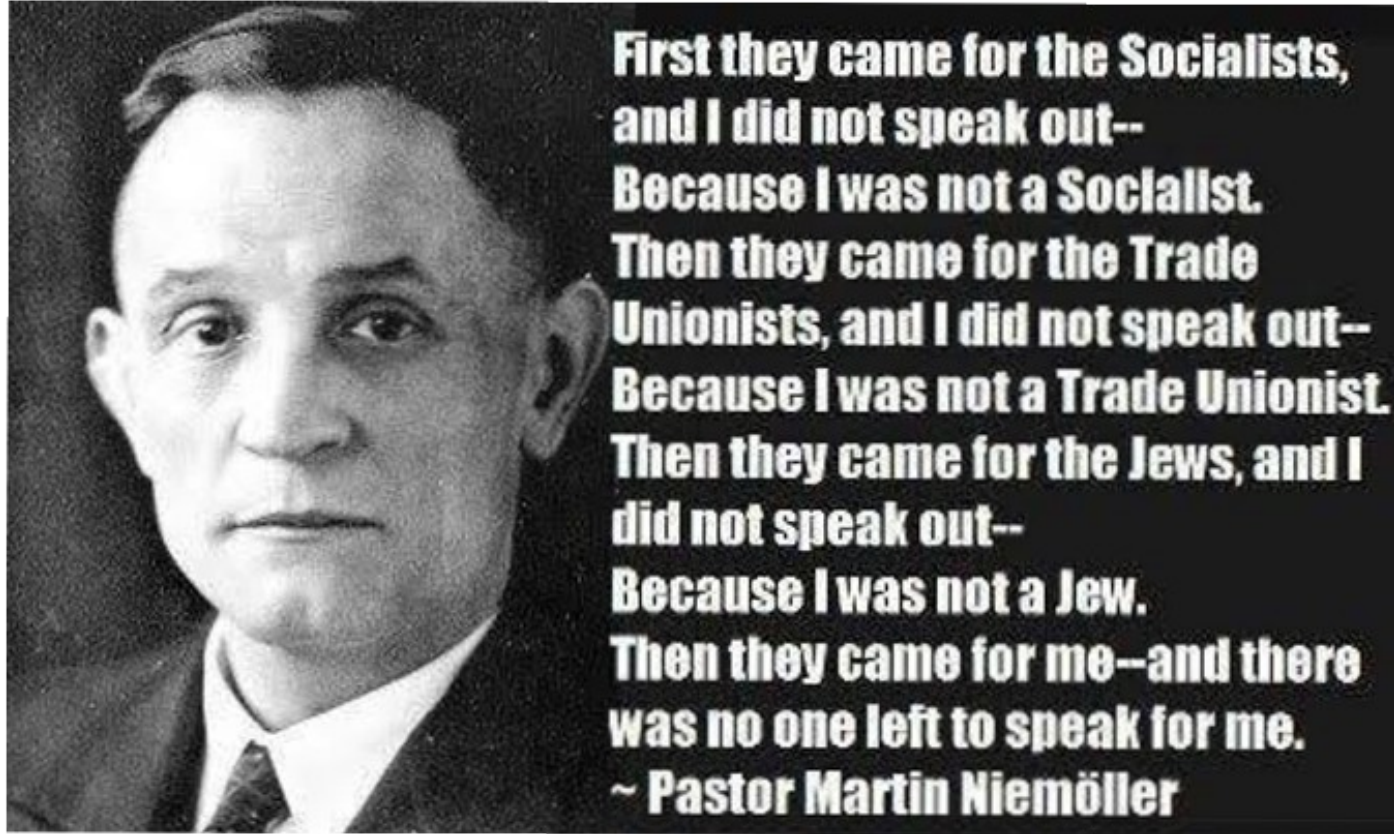

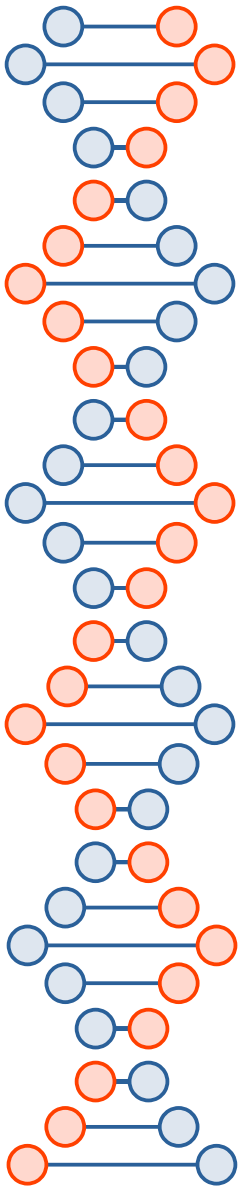

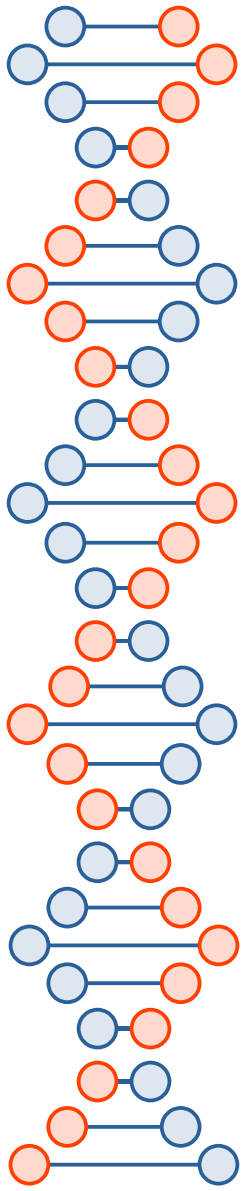

COVID Vaccine Dystopia: A Manifesto

Dr. Joel Hirshhorn

The views of many distinguished medical experts paint a bleak view of COVID vaccines. The likely reaction to the science is very different than the fear constantly propagated by the evil Dr. Fauci and his supporters. Here is the difference: They want you to fear the COVID virus and to accept vaccination, masking, lockdowns, school closings, and other forms of medical tyranny. With extensive data and expert assessments, this manifesto defines a vaccine dystopia. It is a terrible condition where fear of the virus is replaced by fear of the vaccines – supposedly the remedy for the virus. This manifesto supports a different solution to the virus: Give greater attention and importance to a host of treatment protocols that can and should replace unsafe vaccines. Another dimension to revolting against the vaccine dystopia is the need to reclaim personal medical freedom – your right to determine what medicine and vaccine to put into your body, not the government, especially when the government has a biased, one-sided view of vaccine safety.

Remembering The 1930's in Germany

Bill Gates Has Sent Millions to China Throughout Covid

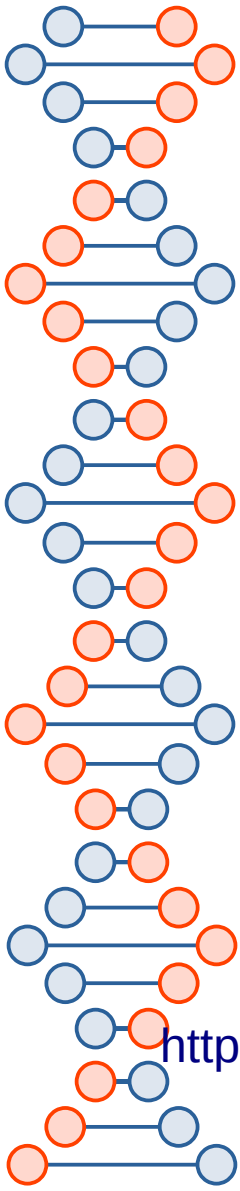

Xi Jinping Meets with Co-chair of Bill & Melinda Gates Foundation Bill Gates of US

2015/03/29

**Over
\$54 million
to fund
“global health”
Projects in
China**

<https://libertysword.com/bill-gates-has-sent-millions-to-china-throughout-covid>

Bill Gates bribed media with \$319 million to promote his interests: Vaccines, depopulation and covid hysteria

- MintPress has released the findings of an extensive investigation into the Bill & Melinda Gates Foundation, which revealed that the billionaire eugenicists, and Bill specifically, has contributed at least \$319 million to the mainstream media to promotes his genocidal endeavor
- Among the recipients of Gates' bribe money are CNN, NBC, NPR, PBS and The Atlantic, plus many international recipients

<https://www.naturalnews.com/2021-11-21-bill-gates-bribed-media-promote-interests.html>

BILL GATES WANTED

For Crimes Against Humanity

Name: Bill (William Henry) Gates
DOB: October 28, 1955
Height: 5'8"
Weight: 154 pounds
Hair: Grey
Education: College Dropout
Net Worth: \$100 Billion US
Address 1: 1835 73rd Ave NE and
7400 Northeast 18th St.
Medina, Washington
Address 2: 2808 Ocean Front
Del Mar, California

CASE INFORMATION

Bill Gates must be stopped. His medical reign of terror and crimes against humanity are listed here:

1. Funding and planning the Covid-19 pandemic at Event 201

On Oct. 19, 2019, Bill Gates funded a simulation of today's pandemic six weeks in advance.

2. Funding the development of the Covid-19 virus

Bill Gates is a major funder of the Pirbright Institute (UK) that owns the patent to the virus. Bill Gates provided Dr. Anthony Fauci with a \$100 million grant, who in turn, funded the coronavirus bat research that included scientists at the virology lab in Wuhan, China.

3. Bribery and buying control over health agencies and officials

Bill Gates has used his philanthropic billions in donations to buy control over WHO, UNICEF, GAVI, PATH, NIAID and the CDC.

4. Genocidal killing, paralyzing and crippling of 1000's of infants and children

Bill Gates funded the GSK's experimental malaria vaccine that killed 151 African infants and caused paralysis, seizures and convulsions in 1000's more. In 2002, his meningitis vaccine forced on African children caused paralysis in over 50 children. In India, Bill Gates experimental polio vaccine paralyzed 490,000 children.

5. Sterilizing millions of unwilling women and young girls in India and Africa

In 2014, Bill Gates funded the experimental HPV vaccine on 23,000 unwilling girls in India. Seven died and 1200 suffered side effects. His \$10 billion funding of WHO allowed them to chemically sterilize millions of unwilling Kenyan women with a tetanus sterility formula vaccine.

6. Using humans instead of animals as experimental guinea pigs

Bill Gates funded Johns Hopkins University experiments that infected 100's of Guatemalans with sexually transmitted diseases for drug and vaccine testing.

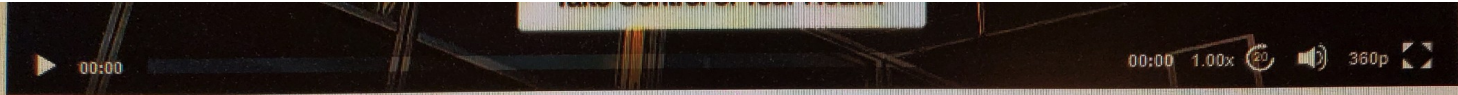

7. Genetically engineering our food with GMO's

Bill Gates invests in Monsanto and GMO Foods. Health risks include infertility, accelerated ageing and weakened immune system. Bill Gates has funded the destruction of rural farming worldwide. In the past 20 years, 30,000 farmers have committed suicide.

8. Human rights abuses including the use of citizen surveillance technology

Bill Gates crimes disguised as charity are the single greatest threat to the world economy, world health, world peace and human rights. His agenda is one world government, one world currency and a culled microchipped population of vaccinated robots.

WE MUST END HIS REIGN OF TERROR! NOW!

[Download Interview Transcript](#) | [Download my FREE Podcast](#)

STORY AT-A-GLANCE

- > Bill Gates is entering every field that has to do with sustaining life and, for over a decade, has undermined vitality in all its forms, in an effort to seize control over and profit from it
- > By funding research and financing public institutions, Gates is able to force those institutions down a path where they can only use his patented intellectual property
- > While pretending to save the world through philanthropy, Gates' solutions perpetuate and worsen the world's problems. They may even threaten the future of humanity, as they're driving us closer to extinction
- > Through his company, Gates Ag One, Gates is pushing for one type of agriculture for the whole world, organized top, down. This includes digital farming, in which farmers are surveilled and mined for their agricultural data, which is then repackaged and sold back to them
- > The answer to the environmental problems we face is not more of the very things that created the problems in the first place, which is what Gates proposes. The answer is regenerative agriculture and real food

This article was previously published on April 4, 2021 and has been updated with new information.

Winning the War Against Therapeutic Nihilism & Trusted Treatments vs Untested Novel Therapies

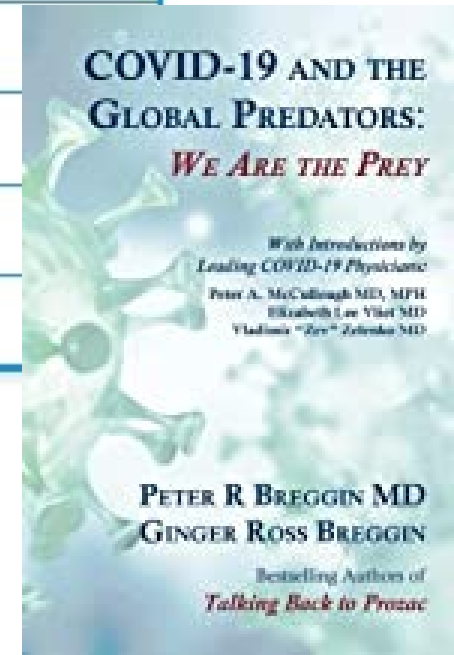

- COVID-19 pandemic is a global disaster
- Pathophysiology is complex—not amenable to single drug
- The prehospital phase is the time of therapeutic opportunity
- Hospitalization and late treatment form an inadequate safety net with unacceptably high mortality
- Early ambulatory therapy with a sequenced, multi-drug regimen is supported by available sources of evidence and has a positive benefit-to-risk profile
- Reduce the risk of hospitalization and death
- More safely temporize to close the crisis with vaccination and natural herd immunity
- COVID-19 genetic vaccines have an unfavorable safety profile and are not sufficiently effective, thus they cannot be generally supported in clinical practice at this time
- Censorship and reprisal are working to crush freedom of speech, scientific discourse, and medical progress

COVID-19 and the Global Predators

Dr. Peter Breggin

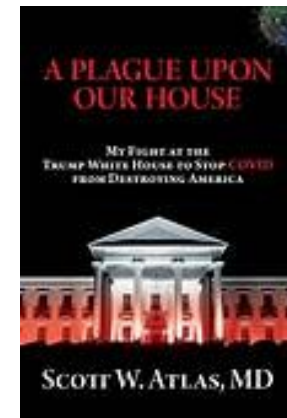

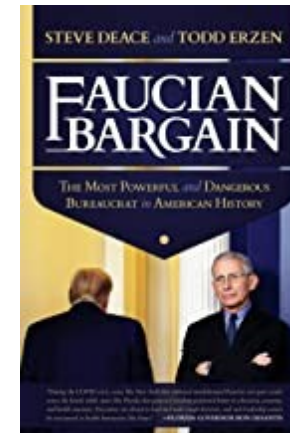

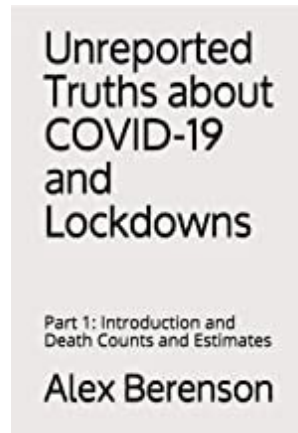

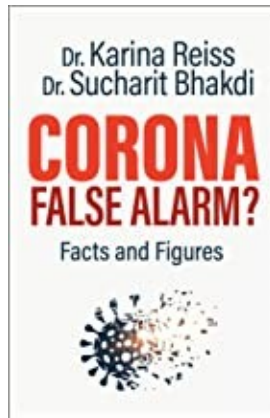

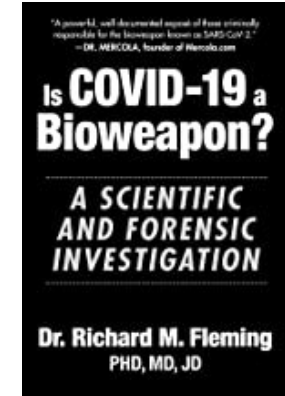

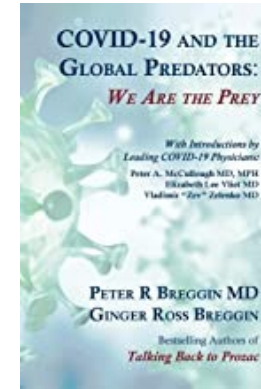

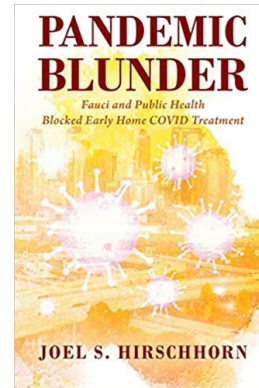

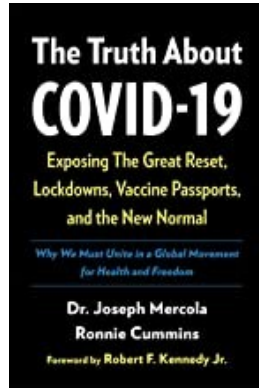

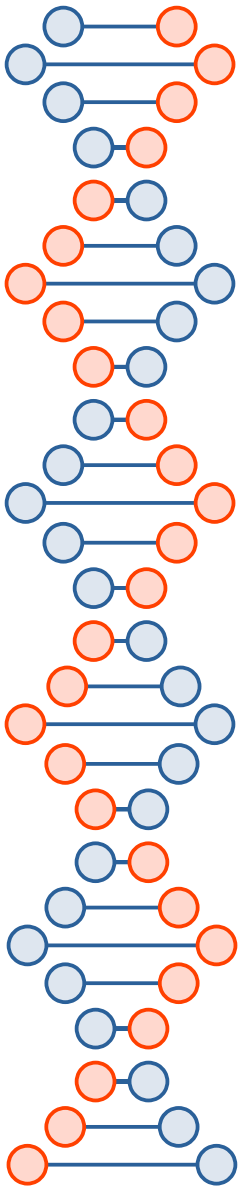

Bill Gates and his organizations	Klaus Schwab and the World Economic Forum (WEF)
Drug companies	Fauci and the NIH/NIAID
The Wellcome Trust	FDA
CDC	BARDA
The WHO	

Don't get scared. Get angry, but don't get demoralized. They want that. You know, there's a whole school of public health that talks about how to intimidate and engender fear to get people to do what you want. It's called fear appeal. So, it's systematic, and public health people have always been totalitarian in nature.

~ Dr. Peter Breggin

Some Recent Books on COVID-19

False Narratives Overview – Steve Kirsch

- **False Narratives About Covid Jab Safety:**
 - The shots are safe and effective
 - No one has died from the COVID shot
 - You cannot use VAERS to determine causality
 - The SARS-CoV-2 spike protein is harmless
 - Only a few adverse events are associated with the shots and they're all “mild”
- **False Narratives About What The Solutions Are:**
 - Vaccines are the only way to end the pandemic
 - Vaccine mandates are therefore needed
 - Masks work
 - Early treatments do not work
 - Ivermectin is dangerous

Misguided Policies Erode Public Trust

- 1 A flawed PCR test with cycle count thresholds that only pick up noninfectious fragments of viral mRNA; a count of 40 means one is noninfectious and nonlethal
- 2 Asymptomatic spread
- 3 Recurrent infection
- 4 Equal risk of severe outcome if infected
- 5 No preventative or therapeutics available
- 6 We were not already partially immune; maybe as high as 80% (some level of immunity against SARS 2)

Misguided Policies Erode Public Trust - 2

- 7 Social distancing of 6 feet prevents spread
- 8 Mass testing asymptomatic persons
- 9 Quarantine asymptomatic persons
- 10 Children spread the virus and at risk of severe illness
- 11 Masks are effective against viral illnesses
- 12 Natural immunity was inferior to vaccine-induced immunity and
- 13 Evolutionary pressure towards virulence is caused by unvaccinated people

What We Do Know Today

- PCR tests don't work – too many false positives
- Cloth masks don't work
- Asymptomatic transmission is rare
- Natural immunity is better than vaccine immunity
- Covid-19 vaccines are still experimental
 - No animal testing
 - No long term testing
- The number of vaccine deaths and injuries is unacceptable
- VAERS numbers are 1% to 10% of the actual numbers
- Therapeutics (HCQ & Ivermectin) are safe and effective
- Lockdowns kill the economy

Overlooked Facts About Covid-19

- Where is this onset of medical insanity taking us? Well, it has evidently opened a can of worms labeled “Covid Vaccine,” a deceptive misnomer to begin with. This so-called “vaccine” does not contain a weakened form of the target pathogen, intended to induce the development of antibodies against potentially serious invasions of that pathogen. A true vaccine assists the body’s natural immunity.

The American Thinker, October 23, 2021

Overlooked Facts About Covid-19 – 2

- That is not the case with the so-called “Covid vaccine,” a synthetic mRNA substitute for the body’s natural immune system that the inventor of mRNA technology, Dr. Robert Malone, advises against taking. Dr. Malone states also that the “fully vaccinated” are Covid “super-spreaders.” The routine claim that the “Covid vaccine” is effective against the infection is far from accurate, since available evidence indicates that hospitals are filling with vaccinated patients and asymptomatic people are suddenly becoming symptomatic after the shot.

Concluding Thoughts

- Follow the science
- Stop the Censorship
- Stop the Lockdowns
- No Mask Mandates
- No Vaccine Mandates & No Vaccine Passports
- Recognize Natural Immunity
- Let doctors practice their medicine
- Permit use of therapeutics for early treatment now!
- Stop medical tyranny and unconstitutional mandates
- Support medical freedom – First Amendment
- Honor doctors' Hippocratic Oath
- Honor the Nuremburg Code

How Do We Respond As Believers?

- Learn to discern the truth – **Matt. 24:24; 1 Th. 5:21**
- Choose freedom – **John 8:32; 1 Cor. 7:21**
- Know what you stand for – **Heb. 11; John 15:14**
- Expect persecution – **Matt. 5:10; John 15:20**
- Love One Another – **Mark 3:25; John 13:34-35**
- Do Not Fear – **Matt. 10:28; Ps. 118:6**
- God is Sovereign & in Control – **1 Tim. 6:15; Rom. 8:28**
- Share the Good News – **John 3:16; John 14:6**
