

Do We Have a Climate Crisis? HeinzLycklama.com/2023-messages

The Bible calls us to be good stewards of the earth. The **UN Intergovernmental Panel on Climate Change (IPCC)** claims that **Global Warming (GW)** is occurring at a rapid rate, that **GW** is largely due to the increased burning of fossil fuel, and that we face dire consequences if we don't cut back on **CO2** being released into the atmosphere. The independent **Nongovernmental International Panel on Climate Change (NIPCC)** has concluded that Nature, not Human Activity, rules the Climate. We have identified at least sixteen reasons how and why the **GW** claims made by the alarmists are not substantiated by the evidence, and that **CO2** cannot possibly be the main cause of **GW**. **GW** alarmism is not supported by the facts and is not warranted. A non-problem does not require a drastic policy decision and solution. How should we as believers respond to this challenge?

1. Climate has always been changing over the last thousands of years
2. CO2 is required for life, increases food production, and is not a pollutant
3. The science is not settled
4. CO2 cannot drive Global Warming
5. Total Solar Irradiation can cause significant fluctuations in the climate
6. Pacific Decadal Oscillations (PDO) can cause significant fluctuations in the climate
7. Full implementation of the Paris Climate Agreement would have almost no effect on the climate, even by 2100
8. UN IPCC climate models are not realistic
9. Surface weather stations give less accurate and higher average temperatures than satellite measurements
10. Polar bears are thriving, not becoming extinct
11. Sea levels are not rising as fast as predicted
12. Arctic sea ice is not disappearing
13. Weather extremes are not increasing
14. UN IPCC charter limits it to identifying only human causes of GW
15. UN IPCC officials admit that its real agenda is to redistribute wealth
16. The alleged "97% consensus of scientists" is bogus

Gen. 8:22, While the earth remains, seedtime and harvest, cold and heat, summer and winter, day and night, shall not cease.
